HETEROGENEOUS VINYL

“

We offer top-quality products,
impeccable service,
innovative, sustainable production
and a proven track record...

But most of all,
we love helping to
achieve your goals.”

COMMERCIAL

About IVC Commercial

IVC Commercial is a global player in the design and manufacture of flooring solutions including Carpet Tiles, Luxury Vinyl Tiles (LVT) and Heterogeneous Vinyl for use in business, public and private environments.

As the commercial division of IVC Group, we're focused on improving the productivity and wellbeing of users in spaces through innovative solutions that are easy to implement and affordable. Accountable for our actions, we design and make floors responsibly in Europe, developing a circular approach to the future of flooring.

IVC Group is part of Mohawk Industries Inc., the world's largest flooring company. With 1,500 employees and 7 production sites in Europe and Russia, IVC Group produces over 130,000,000m² of flooring every year.

Accessories

Smart flooring solutions to ease your mind

Finding the right floor for your project is one thing, but installing, finishing and maintaining it can also be a fraught process. We've thought of everything to help make these steps easier. Whether you're looking for high-quality skirting boards, the right adhesive, specialised tapes, welding products and other installation products, we have the solution.

Go to **ivc-commercial.com** and discover updates of our accessories collection.

Adhesives

High temperature adhesive

available in 5 kg (343935) and 15 kg (343937)

Bonding IVC Commercial Heterogeneous Vinyl floor coverings to a subfloor in an area subject to thermal fluctuation? Use our high temperature adhesive. This solvent-free, low-emission fibre-filled adhesive guarantees perfect dimensional stability. Ideal for spaces with a lot of direct sunlight or places subject to excessive heat. Use on sound and dry subfloors. Warranted by IVC Commercial.

Pressure sensitive adhesive

available in 5 kg (343936) and 15kg (343669)

Securing your IVC Commercial Heterogeneous Vinyl floor coverings to subfloors? Our solvent-free adhesive will tackle the task. A quality adhesive for bonding IVC Commercial Heterogeneous Vinyl floor coverings on suitably sound and dry subfloors. Warranted by IVC Commercial.

Loose Lay Tape

100 mm x 50 m (343915)

With this specialised tape, your loose lay Heterogeneous Vinyl floor is guaranteed to stand its ground, while remaining easy to remove and replace. The tape guarantees 100% Loose Lay vinyl floor installation. Warranted by IVC Commercial.

Velcro universal flooring tape

100 mm x 25 m (343660)

Do you want your Heterogeneous Vinyl floors with textile backing to stick around? Use this specially engineered Velcro tape. The ideal solution for installation of vinyl flooring with a textile backing. Warranted by IVC Commercial.

Welding

Invisiweld / cold welding

Invisiweld technology gives the ability to achieve an almost imperceptible join with all IVC Commercial Heterogeneous Vinyl floor coverings. Fast, clean and easy to use, Invisiweld is economical and leaves a seamless, strong and watertight join. Invisiweld is available in an Invisiweld Starterbox (343928), Invisiweld type A for standard seams (343927), Invisiweld type C for wider seams and gaps (343926), Invisiweld type T for textile backing (343929) and Invisiweld welding tape (343925). Warranted by IVC Commercial.

Steps

Invisiweld

Invisiweld

Hot welding

ø 4 mm x 100 m length

IVC Commercial offers a wide range of welding rods. Join your Heterogeneous Vinyl into a colour-matched welding, or create a contrasting weld. Either way will result in for a flooring solution that is strong and beautiful. Warranted by IVC Commercial.

Steps

Contrasting welding

Colour-matched welding

Colour-matched welding

This is only a summary of the full installation instructions. Please check our website: [ivc-commercial.com](https://www.ivc-commercial.com) for more details.

Skirtings

Paintable standard skirting (340239) and paintable renovation skirting (340238)

Our paintable skirting boards are low maintenance and wear-resistant, providing the best way to hide cables and wires. Unlike other paintable skirting boards, they are also water-resistant. Supplied pre-primed for easy finishing.

Paintable standard skirting

Paintable renovation skirting

Entrance mats

Step Up 60,96 cm x 60,96 cm x 0,9 cm

Step Up is available in four neutral yet captivating shades (400063888, 400063887, 400063886 and 400063885) that set the tone for whatever striking interior lies beyond the entrance. As a buffer between the outdoors and the inside, Step Up catches up to 80% of all incoming dirt, resulting in beautiful, flawless Heterogeneous Vinyl flooring throughout the rest of the building.

Quality

Research & Development

Always on the way to keep the quality of our products on a high and consistent level, we manage in house different quality tests.

Tear test

The force required to tear a vinyl floor. This force is measured in Newtons. The various European or international standards provide for a variety of specific methods.

Delamination test

The delamination test is used to test the adhesion between the various layers. It measures the force required to separate the layers from each other. This may apply to the wear layer, the intermediate layer, or to the backing.

Indentation test

This test measures the residual indentation and elasticity of the vinyl: the extent to which the vinyl floor recovers its original shape after being exposed to a force of 50 kg/cm² for 2.5 hours.

Wheelchair test

This procedure determines changes in the appearance and the stability of resilient floor coverings, under the movement of a wheel chair (25,000 to 50,000 revolutions). The wear of each quality is measured and evaluated in this manner.

Dimensional stability and curling

This examines the degree of curling, shrinkage or expansion of vinyl floorings. During this procedure, the product is heated at 80°C for 6 hours, after which it is acclimatised at room temperature for a certain period.

Thickness

The thickness of the vinyl flooring is measured to verify compliance with European laws.

Wear layer

Microscopy is used to measure the exact thickness of the individual wear layer.

Furniture leg test

Three types of furniture legs are used for this purpose. We mechanically drag the furniture leg over the vinyl with a pressure of 100 kg to assess the extent of damage caused to the vinyl coating. This is done in the longitudinal as well as the transverse direction.

Technology

Compact Flooring EN ISO 10582

Acoustic Flooring EN ISO 11638

Loose Lay Flooring Nomad collection

**Future-proof,
for you and for the planet**

At IVC Group, we truly believe in products that are developed with the future in mind. That’s why we take the time to pause and reflect on the impacts of our entire strategy and operation. But we also realise that actions speak louder than words, so here’s how we raise the industry standard for sustainability, day after day.

“

Through our
certified processes,
skilled and inspired people and
product portfolio that combines
good value and corporate social
responsibility, we really make
the difference, for you
and for the planet.”

- Through resource conservation and waste reduction, we minimise the environmental impact of our manufacturing and distribution operations.
- Our energy-efficient flooring plants are among the leanest and greenest in their class.
- To get our products to you, inland waterways are the logical choice.
- We invest in clean-air technology and cutting-edge manufacturing methods.
- We use as many recycled or renewable materials as possible – think of eco-friendly inks and recycled PVC.
- We hold all suppliers accountable for ensuring that products are made in a responsible manner – one that respects both labour and environment.
